

Why buy HP Graphics and Technical Printing Materials?

The HP large format printing system—the complete solution

HP DesignJet printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a system to provide uncompromising image quality, consistency, performance, durability, and value—with every print.

Please visit HPLFMedia.com for more information on HP large format printing materials for graphics and technical applications.

Original HP inks and HP printing materials—system chemistry

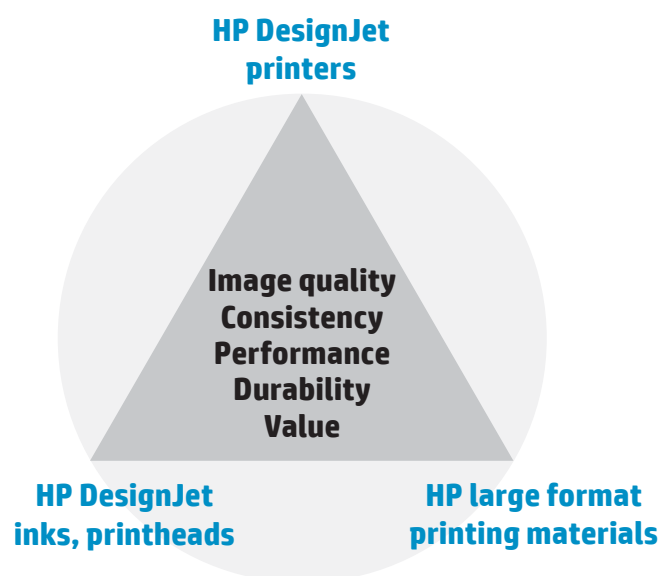

Original HP inks and printing materials are designed together to provide image quality, durability, and consistency you can rely on. Reliable results enable increased productivity and reduced costs. Original HP inks are more than just ink and HP large format printing materials are far more than just paper. It's the chemical makeup of each, together with the carefully engineered interaction between the two, that make exceptional results possible. Image quality and consistency so predictable, it's almost cliché. Print permanence that's measured in generations, not months or years. Breakthrough innovations that give you real alternatives to traditional materials that, by nature, must trade-off quality, durability, even environmental considerations. The unique chemistry between HP inks and HP large format printing materials changes all that—among the broad array of materials offered in the HP large format printing materials portfolio, you can have it all.

Original HP inks and printheads

Original HP printing supplies feature intelligent technology built into the ink cartridges, printheads, and the printer. These critical system components communicate interactively to provide automatic and continuous adjustments that optimize print quality and maximize printhead life. Individually-replaceable printheads enable easy, low-maintenance, cost-effective printing.

Designed with the environment in mind

Many HP graphics and technical printing materials are recyclable through commonly available recycling programs. And in some cases, HP offers the free, convenient HP Large Format Media take-back program.¹ And the HP Planet Partners program provides easy, convenient return and recycling of most Original HP DesignJet ink cartridges and printheads.²

Keep printing materials out of landfill with HP recyclable media eligible for free return and recycling through the HP Large Format Media take-back program.

FSC®-certified HP printing materials carry the Forest Stewardship Council® (FSC) Mix label, signifying that these media support the development of responsible forest management worldwide.

Note: Not all FSC®-certified products are available in all regions.

REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) is a regulation of the European Union, adopted to improve the protection of human health and the environment from risks that can be posed by chemicals.

The PEFC™ label demonstrates that certified HP papers come from forests that are managed sustainably.

Note: Not all PEFC™-certified products are available in all regions.

The following HP large format printing materials have approved fire certifications. For more information see support.HPLFMedia.com/docs/flame-resistant-materials.

	NFPA	CA 1237
HP Opaque Scrim	●	●

- 36 Compatible only with the 36-inch (914 mm) version of the printer series.
 - 44 Compatible only with the 44-inch (1118 mm) version of the printer series.
 - 60 Compatible only with the 60-inch (1524 mm) version of the printer series.
- 1 HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See HPLFMedia.com/ecosolutions for details.
 - 2 Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, and for other consumables not included in the program, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.
 - 3 BMG trademark license code FSC®-C115319, see fsc.org. HP trademark licence code FSC®-C017543, see fsc.org. BMG trademark license code PEFC™/29-31-261, see pefc.org. HP trademark license code PEFC™/29-31-198, see pefc.org. Not all FSC®- or PEFC™-certified products are available in all regions. For information about HP large format printing materials, please visit HPLFMedia.com.
 - 4 Can be recycled through commonly available recycling programs.
 - 5 Papers can be recycled according to region-specific practices. In North America and Asia (including Japan), recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area); in Europe recyclable in consumer collection systems that accept liquid packaging.
 - 6 This product does not contain substances listed as SVHC (155) per Annex XIV of the EU REACH directive published as of June 16, 2014 in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Declaration published <http://www.hp.com/hpinfo/globalcitizenship/environment/productdata/reachall-products.html>. Logo source: Copyright European Chemicals Agency.
 - 7 Requires 3-in core adapter.
 - 8 Roll feed accessory required.
 - 9 Compatible with the HP DesignJet Z3200 PostScript® Photo Printer series only.
